

Application for SSH connection from outside Japan

SSH connections from outside Japan (hostname does not end with ".jp") are usually not allowed in RCCS. Only if the application for the connection from abroad is accepted, you can access RCCS from the registered hosts during a certain period.

Application Form

- [Japanese version](#)

Submission

Please send e-mail with an attachment of the application form to [rccs-admin\[at\]jims.ac.jp](mailto:rccs-admin[at]jims.ac.jp). (replace [at] by @.)

How to know my public IP address?

If you want to login to RCCS from outside Japan and want to know your public IP address, the top page of RCCS will show you that as below (red; underlined).

(This might be different from the local IP address assigned to your computer.)

This message will be shown only if you are accessing from outside Japan.

The screenshot shows the RCCS login interface. At the top, it identifies the user as being from outside Japan with the IP address 66.249.82.127. The main content area is divided into sections: 'Scientific results using RCCS' and 'Simulations of Chemical Reactions'. The 'Simulations of Chemical Reactions' section includes a diagram illustrating the energy levels and transitions for lanthanide complexes, showing states like $(^3D, ^3F)$, $(^1G, ^1D)$, and $(^3D, ^3F)$, and processes such as 'Excitation Energy transfer for (EET)', 'Back EET', and 'F-f emission'. A 'Public Services' sidebar is visible on the left.

In this case, your public IP address is 66.249.82.127.
