

## GAMESS-2019Sep30

### Webpage

<https://www.msg.chem.iastate.edu/games/index.html>

### Version

September 30, 2019 R2

### Build Environment

- Intel Parallel Studio XE 2017 update 8
  - ifort 17.0.8
  - icc 17.0.8
  - MKL 2017.0.4

### Files Required

- gamess-current.tar.gz (version Sep 30, 2019)
- gmsnbo.i8.a (NBO7.0)
- rungms\_rccs (please check installed "rungms" file)
- exam43.patch

```

## Notes

- -xHost option was not used for this version; some of tests met errors if added.
- Binary built with intel 18/19 couldn't pass one of tests.
- "DDI running over MPI" is not advantageous in our Omni-Path connected system. Thus, we employ "sockets" version.
