

Quantum ESPRESSO 7.5 with GPU support

Webpage

<https://www.quantum-espresso.org/>
<https://gitlab.com/QEF/q-e>

Version

7.5

Build Environment

- NVIDIA HPC SDK 25.7 (nompri version)
- Open MPI 4.1.8 (CUDA-aware)

Files Required

- q-e-qe-7.5.tar.gz (downloaded from gitlab)
- (Some of files will be downloaded during the installation.)

Build Procedure

```
#!/bin/sh

QE_VERSION=7.5
BASEDIR=/home/users/${USER}/Software/QE/${QE_VERSION}
TARBALL=${BASEDIR}/q-e-qe-${QE_VERSION}.tar.gz

WORKDIR=/gwork/users/${USER}/qe75-gpu-wo-elpa

INSTDIR=/apl/qe/7.5-gpu
PARALLEL=24

Test Results

Following tests have failed. Copy of log file is available in `/apl/qe/7.5-gpu/testlog`.

- 54:test_qe_lax-r9-t2 => number of parallel processes is not enough to run.
- 55:test_qe_lapack_zdotc
 - zdotc check failed. Expected (1.0000000308637980,6.48839729724212839E-003) but got (0.0000000000000000,0.0000000000000000)
 - (same error as [qe 7.4 case](#))
- 231:system--pw_plugins-correctness => Cannot find any previous test outputs.
- 245:system--pw_scf-correctness
 - pw_scf - scf-rmm-paro-gamma.in: ****FAILED****.
ERROR: absolute error 1.10e+01 greater than 8.00e+00. (Test: 27.0. Benchmark: 16.0.)
- 280:system--pw_twochem--nscf_twochem => twochem with GPU not present in this version
- 281:system--pw_twochem--relax_twochem => twochem with GPU not present in this version
- 282:system--pw_twochem--scf_twochem => twochem with GPU not present in this version
- 283:system--pw_twochem--vc-relax_twochem => twochem with GPU not present in this version
- 346:system--cp_al_edft--Al => Ensemble DFT for GPU not present in this version
- 347:system--cp_al_edft--Al.uspp => USPP for GPU not present in this version
- 349:system--cp_cluster--cluster4 => USPP for GPU not present in this version
- 350:system--cp_cluster--cluster6 => USPP for GPU not present in this version
- 385:system--cp_sio2--sio2-us-lda-cg => USPP for GPU not present in this version
- 388:system--cp_sio2--sio2-us-pbe-cg => USPP for GPU not present in this version

Notes

- While it is possible to incorporate GPU-enabled ELPA, there should not be many cases where it can actually be used.
