

In Response to the Novel Coronavirus

Created day: 2020-04-16 14:01

From Jun. 1, RCCS resumes to normal operation. If you have any difficulties on RCCS related activities (postal mail etc.) due to the Coronavirus, please tell us. We will give some assistance.

(Apr. 16) RCCS supercomputer is working as usual. Various applications and inquiries via email or the web UI are also accepted. On the other hand, it is difficult to respond to phone and postal mail, since many of our staff are working at home. Please ask us not by phone but via email ccadm_at_draco.ims.ac.jp (please change `_at_` to `@`) or [the comment form](#).

In case postal mail is required (such as consent form or license agreement form), please also send us email with the image of the paper as an attached file. If it is difficult to send a document by postal mail, please send us the scanned image or the picture took by camera (cell-phone one is OK) of that paper first. Then, please send us the document by postal mail later.

We really appreciate your understanding and cooperation.
